#### **4. General**

- 4.1 An accident or injury at work, however trivial it may appear at the time, must be reported to the Chairman. Details of the accident should be recorded in the Accident Book held in the office. In the event of an accident which required First Aid treatment, assistance should be available from a First Aider (if available). If it is necessary to call an ambulance, dial 999 or 112 for the emergency services. On no account should you move anyone who appears to be seriously injured unless it is essential to do so for reasons of personal safety.
- 4.2 There is legislation covering the control of substances hazardous to health (COSHH) which requires that all substances used in the workplace must be assessed to identify the risk to health. Fortunately, in an office environment there are relatively few substances that might be hazardous to health, but the litter controller and the grounds man may come across hazardous items. The litter controller and the grounds man should ensure appropriate PPE is worn at all times.
- 4.3 All electrical equipment must be maintained to prevent danger. Electrical inspections are carried out and checked to comply with National Inspection Council for Electrical Installation Contractors (NICEIC) standards.
- 4.4 Lone members of staff should not arrange to meet unknown contacts except in public places. All members of staff should provide details to another person of where they are going, the purpose of the visit and their anticipated time of return. If there is any unexpected change to this, please telephone them if possible.
- 4.5 Aggressive Situations – It is recognized that some of the employees may be subjected to aggression because of the jobs that they do. Orford & Gedgrave Parish Council will and does not tolerate any form of aggression towards its Councillors, employees, or approved contractors. Situations resulting in verbal abuse or anti-social behaviour, as well as physical assault, must be reported to identify possible remedial action.
