

HIGHWAYS COMMITTEE Apr2019-Mar2020 and Apr2020-Mar2021.

2019-2020 income for the Highways Committee was £60,469.00 bringing in a healthy profit of 51k. Plans in place for 2020-2021 was to sort out the car park white lining and to up-grade the ticket machines so they could take cards. As we all know the Country went into lockdown in March 2020 and The NOTT made a conscious decision to put all major work on hold until we understood what the future held.

For the first few months of the Apr2020-Mar2021 financial year the car park was empty, this picked up when restrictions eased, and we had a good summer. Since September income has been erratic due to lockdowns and bad weather earlier this year. Despite all this the carpark still brought in £42,500.50. We are back on track and are hoping for a good 21-22. The car park has now been white-lined to encourage cars to park neatly and so maximise space and we are moving forward to converting the ticket machines to take cards. Potholes have become a concern made worse by the bad weather and are being filled, things are getting back to normal!
